

7th World Congress on
Controversies, Debates & Consensus in
Bone, Muscles & Joint Diseases
October 17-19, Taipei, Taiwan

Dear Colleagues,

We are most pleased to inform you that the 7th edition of the World Congress on Controversies, Debates & Consensus in Bone, Muscle & Joint Diseases (BMJD) will be held in Taipei, Taiwan on October 17-19, 2019, continuing its past successes in Australia, Europe and North America, where it was voted in the list of top 25 medical congresses in the world to attend.

BMJD will continue to enhance the format of its congress program for 2019 offering participants an approach to yet even more productive interactions and discussions between experts and participants through debates of controversial issues, and clinically relevant updates, that can be used in the day to day practice of physicians in the field.

Expert debates of the many advancements in the clinical and basic science fields of bone, muscle and joint diseases will focus on providing practical management solutions to a number of challenging and clinically relevant issues encountered in daily practice.

BMJD counts on the continuous involvement of the industry in order to provide participants with the full spectrum of novel and proven treatment solutions.

We look forward to your active participation and support of the congress.

Sincerely,

Johanne Martel-Pelletier, *Canada*

Jean-Pierre Pelletier, *Canada*

Boulos Haraoui, *Canada*

BMJD Chairpersons
